Evolve™

P10/20

Deter. Detect. Displace.

Evolve P10/20

This popular design fits into most retail environments, helping your stores to deter, detect, and displace shoplifters.

The EVOLVE™ P10 is a robust yet aesthetically pleasing antenna, designed to withstand tough retail environments such as supermarkets and hypermarkets, pharmacies, DIY stores, and garden centers.

The EVOLVE™ P20 is a slimmer alternative to the P10 antenna, designed to withstand the same tough environments but where space is at a premium.

Inside our P10/P20 antenna is our powerful EVOLVE™ electronics, providing your store with best-in-class EAS detection performance, giving you the reassurance that your EAS system investment is working for you when you need it.

The flexible electronics platform also provides retailers with the opportunity to increase its capability and extend the value of the investment.
