Classic Style Antenna

Deter, Detect, Protect

The CLASSIC STYLE combines excellent detection with attractive design for in-store security. Part of Checkpoint Systems' CLASSIC range, the STYLE is ideal for retailers who are looking for simple but effective deterrent and detection in their stores. The CLASSIC STYLE antenna can fit perfectly into any environment, without impacting the customer shopping experience.

The Plexiglas design and Integrated Dual Color LED's – which can be set to permanent on or when the antenna is alarmed – is perfect for those retailers who want top design without sacrificing performance. Base covers are available to order in a range of RAL colors to help the STYLE blend in well with your overall store design and branding.

The CLASSIC STYLE offers attractive simplicity without the compromise on detection levels.

Excellent performance

Enhanced detection capabilities

Customized base covers
